PROFESSIONAL SUMMARY

QA Automation Engineer with 4+ years of experience in manual and automated testing for enterprise and fintech systems. Skilled in Playwright and Cypress automation, API testing, and CI/CD integration.

Recognized as a Subject Matter Expert (SME) in AI-driven QA solutions, leading the design and development of internal tools that enhance testing efficiency, including voice-driven bug reporting, AI-powered test case generation, and automated QA workflows.

Strong advocate of leveraging AI and automation to improve software quality, reduce manual effort, and accelerate delivery in Agile environments.

CORE SKILLS

Primary QA Skills

- Manual Testing (Regression, Smoke, Sanity, UAT)
- Test Case Design & Execution
- Defect Tracking & Reporting
- Test Automation: Playwright, Cypress
- Test Management: Azure DevOps / TFS
- Database Management: Dbeaver
- API Testing: Postman
- CI/CD Integration: TeamCity

Technical Skills

- JavaScript (ES6), HTML, CSS / SASS
- Node.js (basic), React (basic)
- Appian BPM
- SQL / Oracle (Querying & Validation)
- Git / TortoiseGit
- Chrome Extension Development (Manifest V3)

Methodologies & Tools

- Agile / Scrum
 - Putty
 - DBeaver
-

PROFESSIONAL EXPERIENCE

QA Automation Engineer (AI QA SME)

Deltek Systems Ltd. – Makati, Metro Manila

April 2022 – Present

Projects: DTM (Deltek Talent Management), TIPQA – QMS

- Serve as the Subject Matter Expert (SME) for AI-driven QA solutions, driving innovation and leading initiatives to improve and optimize QA processes across the team
- Designed and implemented AI-powered QA tools to automate bug reporting, test case generation, and QA workflows
- Performed manual and automated testing across ERP modules, covering regression, smoke, sanity, and UAT cycles
- Developed and maintained automation scripts using Internal Automation Tools, improving test reliability and execution speed
- Administered TeamCity server by installing and updating builds to ensure availability of the latest project versions for testing and usage.
- Managed defect lifecycle using Azure DevOps (TFS), ensuring traceability and quality across sprints
- Collaborated with developers and stakeholders to ensure high-quality releases

AI QA Automation Projects:

HTML Test Case Generator

- Designed and developed an AI-powered test case generator that transforms Azure DevOps (TFS) bug tickets into structured and interactive HTML test cases
- Automated the conversion of bug details into reusable test scenarios, improving test coverage and reducing manual effort

QA Recorder (Chrome Extension)

- Developed a custom Chrome extension that captures user interactions and converts them into structured QA test steps
- Supports export formats such as JSON, Markdown, and Excel for seamless integration with QA workflows and documentation

TIPQA Voice Assistant (Chrome Extension)

- Built a voice-driven Chrome extension that enables QA engineers to create Azure DevOps (TFS) bug tickets using conversational voice input
 - Implemented speech-to-text functionality for capturing user input in real-time
 - Designed a conversational voice agent to guide users through bug reporting
 - Integrated Azure DevOps REST API for automatic ticket creation
-

Software Engineer (BPM Focus)

Pragmanila Solutions Inc. – Eastwood Ave, Bagumbayan, Quezon City

June 2021 – May 2022

Project: Motherlode

- Collaborated with web developers on group projects, supporting development tasks, minor bug fixes, and technical documentation
- Gained hands-on exposure to frontend and backend workflows, strengthening understanding of application architecture and defect analysis

Project: RMO (Rapid Merchant Onboarding)

Client: UnionBank of the Philippines

- Designed and developed workflow solutions using Appian BPM Suite for MSME onboarding applications
 - Built Appian Records, dashboards, reports, portals, and Customer Data Types (CDTs) from XSDs
 - Developed SAIL forms, expression rules, and process models based on business requirements
 - Worked in Agile environments using Jira for story creation, estimation, and sprint coordination
 - Collaborated with business stakeholders to deliver reliable and efficient workflow solutions
-

CERTIFICATIONS

- **Playwright: Web Automation Testing From Zero to Hero** – Udemy
 - **Cypress: Modern Automation Testing from Scratch + Frameworks** – Udemy
 - **Python is Easy** – Pirple
 - **JavaScript Essential Training** – LinkedIn Learning
 - **HTML Essential Training** – LinkedIn Learning
 - **CSS Essential Training** – LinkedIn Learning
-

EDUCATION

Bachelors Degree in Information and Communication Technology

Polytechnic University of the Philippines – Anonas, Sta. Mesa, Metro Manila
2020
